Junior Golang Developer for Imunify Security [Remote]

We are looking for a talented Junior Golang Developer to join our Imunify Security teams.

We are Cloud Linux Inc., the maker of the #1 OS for web-hosting providers. We develop our products -- CloudLinux OS, KernelCare, and Imunify360 -- using the most innovative technologies. Our products are used by thousands of companies around the world, including Dell, GoDaddy, IBM, 1&1, Endurance and many others.

Imunify Security is an innovative security solution, powered by Artificial Intelligence for Linux web-servers. It is designed specifically for shared and VPS/Dedicated servers. The automated, easy to use security solution with the six-layer approach to security delivers comprehensive and complete attack prevention.

Work is fully remote, with flexible hours, where you can plan your day and work from anywhere.

More details about the project you can find on the product website Imunify360.com.

Requirements:

- Experience with Go
- Ability to write and maintain code according to Go-style guide
- Experience with databases
- Good understanding of the network stack and TCP / IP, HTTP in particular
- Knowledge of Git, Linux / Unix
- Teamwork skills
- Ability to understand someone else's code
- English at the level of written communication

Would be a plus:

- Knowledge of Python

- Experience in open source projects
- Knowledge of Go-testing and debugging tools
- Multi-threaded programming experience

What is for you?

- A great opportunity for professional development within a young and fast-growing company
- Interesting and challenging projects
- Remote work on a full-time basis under a long-term contract
- Compensation in US dollars
- Flexible working hours
- Paid one month vacation per year and sick leaves
- Days off on national holidays
- Medical insurance
- Coworking compensation
- English Language training
- Challenging tasks
- Knowledge-Exchange

If you want to become a part of a friendly team, to work with the latest, leading technologies, be proud of your work and want to be part of something bigger - we are waiting for you!

By applying for this position, you agree with Cloudlinux Privacy Policy and give us your consent to maintain and process your personal data with this respect.
